# NAVIGATING COMPLEX PROJECTS

## Simplifying Every Step

At Lumato, we simplify complex lighting projects through seamless vertical integration, quickly delivering affordable, specification-grade solutions. Our products blend quality, performance, and value, ensuring they meet the high standards of today's architectural spaces.

### **Quality Without Compromise**

Lighting decisions should never feel like compromises. That's why Lumato provides reliable, well-crafted solutions that integrate seamlessly into any design a choice specifiers can trust.

### **Confidence in Every Project**

We are dedicated to delivering exceptional lighting and experience from concept to completion. Ensuring confidence in every project, every time.

## NEW PRODUCT

## GEO 2 Suspended

### 2.5" Shapes & Patterns

Designed for versatility, performance and ideal for large applications, GEO 2 features an integral driver for easy installation and delivers up to 1250 lumens per foot. Its roll-in lens ensures seamless illumination, while flexible design options let you choose from preconfigured shapes or create your own pattern. Available in Direct, Indirect, and Indirect/Direct configurations, all with an integral driver for a streamlined setup.

**Coming soon! Consult factory for specification details.**

## GEO 1 Suspended

### *1" Shapes & Patterns*

Combining the compact profile of our Slēk with high-performance lighting, GEO 1 delivers up to 1000 lumens per foot, perfect for specialty applications like conference rooms and private offices. The remote driver enables flexible, hassle-free installation, while the roll-in lens ensures smooth illumination. With a 90 CRI standard, GEO 1 delivers exceptional color accuracy for true-to-life lighting.

#### Performance

250-1250 lumens per foot  
Up to 152.3 lumens per watt at 90 CRI

### 3-Inch Family

*Suspended, Ceiling, Recessed & Wall*

#### Performance

125-1000 lumens per foot  
Up to 159.7 lumens per watt

### 5-Inch Family

*Suspended, Ceiling & Recessed*

#### Performance

125-1000 lumens per foot  
Up to 159 lumens per watt

## Linear Family Series

*Direct & Indirect / Direct*

Engineered for adaptability, the Linear Family Series delivers powerful illumination with enhanced flexibility. Available in lengths from 2 to 12 feet in 1-foot increments, it seamlessly integrates into any design. Continuous runs create a clean, uninterrupted look, while specialized optics—including Wall Wash (3"), Indirect Asymmetric, and Batwing—ensure precise, high-quality lighting for any space.

### 2SA Acoustic Suspended

*Direct & Indirect / Direct*

#### Performance

250-1250 lumens per foot  
Up to 152.3 lumens per watt at 90 CRI

## Linear Acoustic Suspended

The Slēk and 2SA Acoustic Series is an architectural fusion of light and sound. The slim 1" and 2" aperture pairs with an acoustic baffle to deliver versatile illumination and substantial sound absorption for various commercial, civic, and educational spaces. The acoustic shroud slides seamlessly over components, designed for effortless installation, creating a snug, secure fit.

Up to 117 lumens per watt at 90 CRI

## GEO 1 Plane Suspended

*Direct & Indirect / Direct*

The GEO 1 Plane series blends light and sound for a bold architectural statement. Paired with GEO 1, PLANE adds depth and shape while delivering high acoustic performance and sleek aesthetics. For enhanced sound absorption, combine with unlit PLANE in commercial, civic, or educational spaces. The acoustic panel easily installs into illuminated shape and can be added to existing GEO 1 installations for upgraded acoustics.

# UNLIT ACOUSTICS

## GEO Plane Suspended

The Acoustic Plane suspended baffle provides a uniquely effective baffle design with a low-profile aesthetic, designed especially for spaces with low, hard ceilings where standard baffles or clouds aren't an option.

## Box & Box Mini Suspended

The Acoustic Box and Box Mini baffle provides a uniquely effective baffle design with a low-profile aesthetic. Pair the 2" wide Acoustic Box or 1" wide Box Mini with our Illuminated Slēk and 2SA products for optimal illumination and acoustic performance.

## Blade Suspended

The Acoustic Blade baffle has been designed to complement any space with a clean design style and visual appeal that improves acoustics and reduces unwanted noise.

# UNLEASH YOUR CREATIVITY

## Acoustics Without Boundaries

At Lumato, we have the capabilities to meet your acoustic solutions needs, including size, color, and configuration. Whether illuminated or unlit, Lumato is your answer. Let us help you Unleash Your Creativity.
